

CCM Technical Maintenance Bulletin

Bulletin 09 - November 10, 2010

Reporting of Errors

Your help can improve this bulletin. If you find mistakes or you know of a way to improve the procedures, please let us know at mnr@ccmpool.com

All CCM repair vendors are required to comply with Safety & Security Regulations imposed by Terminal Operators where work is performed, in accordance with the License Agreement and Article 5.8 of the Form Agreement D.

Are you registered with DRS?

All truckers and depots are encouraged to register in our DVIR Receipt System (DRS). For complete details please visit us at

Stemco Partnership

Summary

This Bulletin serves to announce that CCM has entered into a strategic agreement with Stemco Products, that establishes them as the preferred supplier for the following wheel-end and foundation brake components, for all CCM managed chassis.

Component Part	Stemco Product Names
Wheel Seals	Grit Guard, Guardian, Voyager
Slack Adjusters—Stemco/Crewson	Manual, Automatic (with or w/out auto-check)
Friction Linings	
Brake Hardware Kits	
Hubcaps	

Stemco will be offering special pricing for all these products and will make them available throughout their dealer network for the prices listed below. CCM will allow repair vendors to charge a 15% markup above purchase price.

Stemco will also be working with CCM to develop new training programs and will be providing wheel-end and foundation brake training to all CCM authorized repair shops.

As Stemco products are now the preferred part for all CCM operated chassis, please ensure the parts listed below are always stocked and used as primary replacement parts when replacing these components.

Should you have any questions or difficulty in securing the negotiated parts prices, please contact the CCM M&R Department at your earliest convenience.
